Bradford founded Stable Development in 2005 to promote his unique office building model in Las Vegas. His education, experience, and working knowledge propelled Stable Development to one of Las Vegas' most successful commercial office developers. His tenant ownership model has out performed the market and led Stable's successful navigation through a challenging economic environment.

Bradford's vast experience owning and managing companies dates back to the early 1990s when he left Ernst & Young and co-founded L.L. Bradford & Company, a Vegas based CPA firm. He successfully grew the accounting firm and simultaneously developed several office buildings in Southern Nevada. L.L. Bradford currently employs more than 40 people and is one of the largest CPA companies in Nevada.

During a 5 year stint as President of Vestin Mortgage, a leading real estate based NASDAQ company, Bradford gained extensive commercial real estate experience. After he successfully positioned Vestin for a \$500 million initial public offering, he left the organization to create Stable Development and focus on the continued success of L.L. Bradford.

Bradford and his wife of 20 years believe in giving back to the community, being involved in several nonprofit organizations. They formed The American Help Foundation which provided in excess of \$2 million in scholarships for single working parents in need and were actively involved in the development of the Rainbow Dreams Academy Charter School.

Bradford earned a Bachelor of Science Degree in Business Administration from the University of Nevada at Reno and is a licensed CPA.
